

# Healthy & Tasty Drinking Water

Water enhanced using

**As DEW** Water Bottle becomes:

✓ **ALKALISED**

Raises the water's pH level to mildly alkaline (pH 7.5 – 9). Lowers Oxidation Reduction Potential (ORP) and neutralises free radicals in the body.

✓ **MINERALISED**

Releases vital elements such as calcium, silicon and iron into the water.

✓ **PURIFIED**

Cleanses water by reducing the level of harmful elements such as chlorine, arsenic and lead, as well as inhibiting microbial growth.

✓ **VITALISED**

Energises the body by micro-clustering water molecules to allow easier absorption into cells. Improves metabolism by rapid hydration of the body.

## Quality water improves health

The **As DEW** Water Bottle and cartridge should only be used with drinking water, including filtered, distilled and Reverse Ozmosis (RO) water. Do not use with carbonated drinks, juices, coffee or tea.

## Water Bottle

Instruction Manual

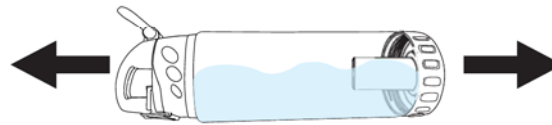

### Water Bottle and Cartridge Installation

1. Unscrew the base lid.
2. Insert the cartridge.
3. Tighten the base lid.

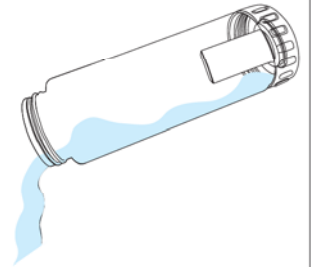

### Cleaning - Initial and Regular

1. Unscrew the top lid and fill the bottle halfway with warm drinking water. Screw lid firmly to close.
2. Shake the bottle horizontally from left to right for 5 seconds.

3. Dispose of the water from the top.
4. Repeat 2 to 3 times.
5. The Water Bottle is ready to use.

### Usage

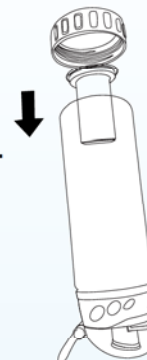

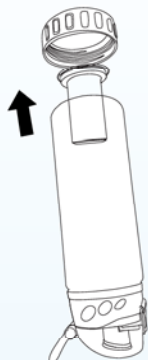

1. Fill the bottle with drinking water.
2. Swirl the bottle and let it sit for 30 minutes.
3. Swirl occasionally to ensure water is properly mixed.

For best results, repeat the Cleaning process weekly.

### Cartridge Replacement – Every 6 to 12 Months

1. Empty the bottle and unscrew the base lid.
2. Take out the old cartridge and replace with the new cartridge.
3. Tighten the base lid.

 Do not use detergent or salty water to clean the cartridge. Charcoal particles from the cartridge may appear. They are safe to consume.
